Docket No. 98N-1265 JUN -9 P2:00
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I have severe allergies and after many years of attempts at hormone replacement for menopause I was finally able to get a balanced replacement system without any side effects by having my prescriptions compounded at Madison Pharmacy. It is very important that this type of resource remains available, for all of the people for whom the standard regimens don't work.
